ABOUT ME

What is the difference between an average coder and an excellent coder? The difference is that an average coder would know what to do but an excellent coder will make the code simpler and more understandable. I inspire to be an excellent coder by working with other developers, to learn from senior developers and build a foundation with my peers as any developing team, teamwork is key to any successful project.

SKILLS

HTML

CSS

React

Node.js

JavaScript

MySQL

EDUCATION

BSc Business and IT

Coventry University

2016-2020

BTEC LEVEL 3 Business Enterprise

Westminster Kingsway College

2014-2016

PROJECTS

FitMe

FitMe is a web SPA designed for people who are into fitness or just starting. Simple navigation from one page to another. User interface made simple for the average fitness user.

MyStuff

MyStuff is a C2C (consumer to consumer) transaction that allows consumers to sell to other consumers. Authorization is implemented for a consumer to purchase, make listings etc.

Portfolio

A simple portfolio that showcases my skills as a front-end developer that mainly uses CSS and JavaScript to navigate around the page.

Rock, Paper And Scissors

A simple rock, paper and scissors game for anyone's amusement.

HOBBIES & INTEREST

Fitness – Eating healthy and exercising 3 times a week for selfcare. Playing basketball with my friends.

Cooking – Creating simple and delicious food from my home country.
